Document Upload Improvement · Sprint 1

Power / Interest Matrix

High Power · High Interest Sarah, Marcus — manage closely	High Power · Low Interest Keep satisfied — not applicable this sprint
Low Power · High Interest Emma, Lisa — keep informed	Low Power · Low Interest Raunak, Tim — monitor

Stakeholder detail register

Name/Role	Interest	Power	Primary concern	What they need from BA	Engagement approach
Sarah van der Berg Head of Product	High	High	Feature shipped on time. Measurable impact on conversion KPIs.	Clear scope. Prioritised backlog. Progress visibility. No surprises.	Weekly 30-min status. Approve MoSCoW. Final sign-off on BPS.
Marcus Jansen Compliance Officer	High	High	GDPR compliance and Wwft KYC requirements met in the new flow. Zero regulatory exposure.	Review and sign off acceptance criteria on Stories 6 and 8. Input on data retention requirements.	Dedicated review session before Sprint Planning. Written sign-off required.
Emma de Vries UX Designer	High	Medium	A clean, intuitive flow that does not get compromised by compliance constraints added late.	Early sight of acceptance criteria before wireframes are built. BA to flag compliance constraints upfront.	Collaborative sessions on Stories 1, 2, 3. Invite to refinement.

Raunak Patil Backend Developer	Medium	Medium	Technically feasible requirements. No scope creep mid-sprint. Clear API and file validation specs.	Non-functional requirements (file size limits, format types, timeout thresholds) defined before sprint starts.	Sprint Planning + ad-hoc clarification. Blockers resolved within 4 hours.
Lisa Bakker Customer Service Lead	High	Low	Fewer upload-related support tickets. CRM visibility into a customer's upload	Story 7 specifically addresses her need. Keep her informed on delivery timeline.	Monthly update. Source of AS-IS pain point data - interview her first.
Tim Smeets Data Analyst	Medium	Low	Measurable success metrics. Correct event tracking implemented so he can report on data	Story 9 defines the analytics requirements. Needs event taxonomy agreed before development starts.	Refinement session for Story 9. Review analytics spec before sprint.
